Maritime Managed Services

Anker encompasses Telenor Satellite's latest portfolio of Ka-band maritime managed service solutions. With Anker you can devise unique VSAT service profiles capable of meeting any requirement.

Speed

A speed-based service profile is ideal for users requiring a high quality connection and fixed monthly service charges.

- ✓ Guaranteed CIR with burstable MIR
- ✓ Up to 24/6 Mbps CIR and MIR rates
- ✓ Fixed monthly rate

Quota

Quota is ideal for both entry level users requiring a low monthly service charge and sporadic users requiring high-speeds and predictable costs.

- ✓ Volume plans – from 5 – 200 GB
- ✓ Notification sent by e-mail when 50% and 90% of quota limit reached
- ✓ Top-up packages available to order through The Bridge

Custom

Custom provides full flexibility, and the possibility to create a profile suitable to meet any requirement.

- ✓ Custom rate-based service profiles
- ✓ Symmetric/asymmetric profiles
- ✓ Wide selection of contention rates
- ✓ Fixed monthly rate

"Our reliability and guaranteed service is something we are extremely proud of and from listening to our customers we recognised the need for more flexible solutions. Anker's portfolio is incredibly versatile and accessible for all types of vessels. With Anker we can accommodate seasonal flexibility and meet short-term service requirements. This is just another step in our mission to offer our customers an improved broadband experience."
